

RAJ KUMAR DAS

B.Tech Computer Science & Engineering (3rd Sem) | Software & AI Developer

Email: rajkumar.das@student.amity.edu | Location: Ranchi, Jharkhand, India

LinkedIn: linkedin.com/in/raj-kumar-das-b444a127b | GitHub: github.com/rajkumardas

PROFESSIONAL SUMMARY

Enthusiastic Computer Science Engineering student passionate about software development, artificial intelligence, machine learning, and web engineering. Proven ability to construct full-stack Python/Flask applications, machine learning threat detection dashboards (SentinelAI for SIH 2026), and deep learning model benchmarks. Continuous learner with strong algorithmic problem-solving capabilities.

EDUCATION

B.Tech in Computer Science & Engineering (CSE Core)

2025 – 2029

Amity University Jharkhand — Currently studying 3rd Semester

Ranchi, India

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, SQL, HTML5, CSS3

Web Technologies: Flask, Bootstrap 5, REST APIs, Responsive UI/UX

AI & Machine Learning: Machine Learning, CNN, Autoencoders, VAE, XGBoost, Data Analysis

Tools & Environment: Git, GitHub, VS Code, Google Colab, Databricks SQL

PROJECTS

SentinelAI — Network Security Attack Forecasting & Detection

- Built an AI network traffic security model using XGBoost across 67 features to classify DDoS, Brute Force, and SQLi attacks.
- Designed interactive threat-monitoring dashboard using HTML/CSS/JavaScript and Python.

Smart Canteen — College Pre-Ordering System

- Full-stack Flask web application allowing students to browse food menus, order online, and track order status.
- Includes student profile auth, order history, and an administrative order management dashboard.

MNIST Deep Learning Architecture Benchmark

- Implemented CNN, Autoencoder, SAE, and VAE neural network architectures for digit recognition and reconstruction.
- Conducted comparative model accuracy, F1-score, and loss visual analysis.

HACKATHONS & EXPERIENCE

Smart India Hackathon (SIH 2026) — Team UNCODED

2026

Frontend Dashboard UI Designer & Technical Contributor for SentinelAI project.

CERTIFICATIONS & ACCREDITATIONS

- **Gemini Certified Student** — Google for Education (Valid through Aug 2029)
- **Junior Software Developer (SSC/Q0508)** — Skill India & IT-ITeS SSC NASSCOM (Level 4 Govt. Qualification)
- **Python Programming Skill Assessment (90.00%)** — CodeAlpha (ID: CODEALPHA-9048B378)
- **SQL Analytics & BI on Databricks** — Databricks | Simplilearn SkillUP (Code: 10557865)
- **Google Student Ambassador** — Freshers' Party Challenge (Google Student Ambassador Program)
